

Gossen Metrawatt GmbH Privacy Policy for the ELEXONIQ Appliance Testing APP (dasl.metrainemobile) in Google Play Store

General information

Gossen Metrawatt GmbH presents the ELEXONIQ Appliance Testing APP (app) in its current version for use pro for business purposes. This Privacy Policy provides information about the collection, use and disclosure of personal data and the rights under data protection law.

Personal data is any information relating to an identified or identifiable natural person, such as names and email addresses, as well as usage data such as IP addresses.

Personal data will not be collected, used or shared in any other way than described here. Gossen Metrawatt GmbH complies with the applicable legal requirements.

Data collection

The app collects:

- the tester name you entered and with which you carry out your measurements,
- the data you have entered about your customers (in particular names and addresses),
- the measurement and test data you have entered ("Device Under Test": ID, name of the tested device, manufacturer, etc.) as well as
- the technical measurement and test data recorded by the measuring device (date, serial number, measurement details [current, voltage and power] etc.), which allow conclusions to be drawn about you.

The app also records this personal data from minors (in particular from apprentices), provided they register as testers and make the corresponding entries.

Use of data

The personal data is used to provide the following function of the app:

- Preparation of the recorded measurement and test results of the measuring device you are using, and other data you have entered, for the creation of test reports (in accordance with applicable rules and regulations).

The data is only stored locally on your mobile device, there is no data transfer to Gossen Metrawatt GmbH. Therefore, there is no data backup on the part of Gossen Metrawatt GmbH. You are obliged to back up your data properly and regularly.

App access

The app requires the following authorizations of your mobile device for the purposes mentioned:

- Internal memory: for recording, storing and managing the measurement and test results as well as your entries;
- Bluetooth: to transfer the recorded measurement and test results from the measuring device you are using to the app;
- Location: technically required for the function of Bluetooth - otherwise there is no localization or use of your location data;
- Camera: for reading QR codes and taking photos, if you want to add them to the visual inspection;
- Photo gallery: to select photos, if you want to add them to the report.

Transmission of data

The data is only stored locally on your mobile device. Gossen Metrawatt GmbH has no technical means to access and does not transmit any data to third parties. Data from the app will only be transmitted if you carry

out such a transfer yourself (export of the xml file) using third-party communication (cloud storage, sending via e-mail or messenger services, etc.). This is based on the conditions of the provider you have selected and is not the responsibility of Gossen Metrawatt GmbH.

The statistics generated by Google in the Google Play Console for managing the app do not currently contain any personal data. They are based on the applicable provisions of Google and are not the responsibility of Gossen Metrawatt GmbH.

Advertising

The app does not contain any free or paid advertising.

Rights

The data is only stored locally on your mobile device, Gossen Metrawatt GmbH has no technical possibility to access. You have to grant the existing rights according to the applicable legal provisions to access, to request a copy, rectification, erasure, restriction of processing, data portability and the right do object with regard to the personal data, also with regard to the data of your customers and third parties entered by you.

You have the possibility at any time to contact us, our data protection officer or a data protection supervisory authority with concerns and questions or a complaint with regard to this Privacy Policy.
